SUB-Report on internship at gips hospital.

Respected Doctor,

I am a student of kanoria hospital studying clinical psychology course. During this course I have internship of 3 months, which I choose at gips hospital. In internship I have learnt about psychiatric pt historytaking, counseling & psychological test. We learn more in gips hospital. We have learnt from Mr,Dhiraj kumar who is psychologist. Dr.Dharmesh taught us how to take history and also Dr.Ankita they all give good responses and support to us. Staff of gips are also very co-operative.

Suggestion for improvement-I would like psychiatrists to give more time to help us learn more during our training.Thanking you.

Your Fathfully

VAISHALI DHAKAN.
